

QUEEN'S UNIVERSITY AT KINGSTON

The membership of the supervisory committee should be proposed in the doctoral program.

The Supervisory Committee will consist of the supervisor(s) and two faculty who are not in the Department of Mathematics and normally members of the Department. The Supervisory Committee must hold a full appointment with the Department of Mathematics and if the research is of an interdisciplinary nature, one of the members of the Supervisory Committee must have the ability to evaluate the contribution to the discipline outside the Department.

The function of the Supervisory Committee is as follows :

1. To advise the student on the progress of the program.
2. To advise the student on the selection of the thesis topic.
3. To advise the student on the selection of the thesis advisor.
4. To advise the student on the selection of the thesis committee.

PROPOSED SUPERVISORY COMMITTEE (in addition to supervisor(s))
