

ALL	PSYC 899	Master's Thesis Research	
ALL	PSYC 999	Doctoral Thesis Research	
ALL	PSYC 801	Design of Experiments	Topics include: The logic of the test for significance and controversies concerning it; ANOVA and its underlying linear model for betw-11.7iblancing conditions against trend; hierarchical designs; ANOVA and multiple correlation; designs including organismic variables; random- effect models and the fixed-effect fallacy; data transformations and non-parametric tests. Fall; lectures (3 hrs) and tutorials (1½ hrs).
ALL	PSYC 802	Introduction to Multivariate Analysis	Topics include: History of Multivariate Techniques, Matrix Algebra, Data Assumptions and Preparation, Multiple Regression, Canonical Correlation, Multivariate Analysis of Variance, and Discriminant Function Analysis. Winter; lectures (3 hrs) and tutorials (1½ hrs).
ALL	PSYC 975	Applied Internship I	Students may arrange for one or two terms of supervised applied training outside of the department. Internships will be individually arranged to further the development of each student's program. Student's will submit a list of objectives before the plan is approved, and a report of progress at the end of the term.
ALL	PSYC 976	Applied Internship II	
CLIN	PSYC 805	Introductory Assessment	These courses constitute an introduction to the practical aspects of clinical assessment. In PSYC- 805* student(u)-0.65Tw -39.3aAMCID 7027.59YL
CLIN	PSYC 806	Introductory Assessment	
CLIN	PSYC 809	Child-Adolescent Clinical Psychology	Provides an overview of normal and abnormal development from conception to adolescence. Presentations balance theoretical controversies, basic research, and practical applications surrounding development principles considered in both the promotion of competence and the prevention/treatment of disorder. (2½ hrs)
CLIN	PSYC 827	Adult Clinical Psychology	In PSYC-827* major areas of adult psychopathology are emphasized including anxiety and mood disorders, schizophrenia and personality dis orders. Fall or Winter (2½ hrs)
CLIN	PSYC 829	Ethical & Professional Issues	Designed to raise students' awareness of ethical principles and expose them to issues and perspectives related to their training as professionals. Seminar (2 hrs)
CLIN	PSYC 838	Introductory Clinical Practica	Students choose two practica from a variety of applied settings. These experiences are designed to introduce students to functioning in a clinical setting. Fall and winter (one day per wk for a total of 120 hrs per course) Students are given an introduction to the major theories and basic skills involved in interviewing, cognitive-
CLIN	PSYC 839	Introductory Clinical Practica	
CLIN	PSYC 847	Theory, Treatment & Process	

CLIN	PSYC 957	Advanced Therapy I	Students will learn skills required for conducting therapy using approaches other than Cognitive Behavioural Therapy. (e.g., Interpersonal Psychotherapy for Depression (Klerman model), Systemic Family Therapy). A blend of classroom instruction, videotaped therapy sessions, observation, modeling, feedback and supervised practice is used. The approach taught in any given year will depend upon the availability of instructors. (3 hrs)
CLIN	PSYC 968	Health Psychology	These courses explore various problems associated with the areas of health psychology and behavioral medicine. The focus will vary depending on the instructor. Topics may include the relationship between stress and disease, health promotion, psychological management of pain.
CLIN	PSYC 973	Couple Therapy	

PSYC 899 MSc Thesis

Note: MSc students need to enroll in PSYC 899 for all their terms until they graduate.

PSYC 801 Design of Experiments

PSYC 802 Intro to Multivariate Analysis

PSYC 805 Intro Assessment

PSYC 806 Intro Assessment

PSYC 827 Adult Clinical¹

PSYC 829 Ethical & Professional Issues

PSYC 809 Child- Adolescent Clinical¹

PSYC 847 Treatment Theory & Process¹

PSYC 838, PSYC 839 Introductory Clinical Practica

PSYC 999 PhD Thesis

Note: PhD students need to enroll in PSYC 999 for all their terms until they graduate.

PSYC 910 Advanced Assessment²

PSYC 922 Multicultural Clinical Practice

PSYC 978 Research Skills/Program Evaluation²

At least one of the advanced Therapy Courses:

PSYC 957 Advanced Therapy I

PSYC 973 Couple Therapy

PSYC 974 Advanced Therapy II

PSYC 983 Advanced Child/Adolescent Therapy

Electives: Doctoral students take three additional courses from those offered in the Clinical Program or in the other areas of the Department or University, to be approved by supervisor and Clinical Chair.

PSYC 989, PSYC 990 Advanced Clinical Practice

PSYC 991, PSYC 992 Advanced Clinical Practice

PSYC 993 Clinical Internship

Note: PhD students need to enroll in PSYC 993 for all three terms of their internship year.

1 Offered in alternating years for MSc1 and MSc2

2 Offered in alternating years for PhD1 and PhD2
