HEALTH and SAFETY BULLETIN

- During the few minutes of total eclipse (3:22-3:25pm approximately) it will be as dark as night/twilight. You may need extra light to work outside during this time. However I do recommend taking those few minutes to watch this once-in-a-lifetime event.
- If you are not using glasses supplied by the university, ensure the glasses meet $I_b \leq 0.58585.5$
