

Referred to Senate Operations Review Committee (SORC)

Submitted by Senator Berkok

Changes to Senate Procedure

It is requested that Senate ask that the Senate Operations Review Committee (SORC) to report back to the February session of Senate with a recommendation on the following changes to Senate procedure:

- a. That Senate begin earlier and that the maximum duration be extended to three hours.
- b. That senators be allowed priority for Senate meetings.

Rationale:

These are efficiencies designed to allow Senate to better focus on discussion of the broad academic issues it is intended to deal with.
